READY4DISasters

*Resilient communities
through awareness and
preparedness against the
risks of fire, flood, and
landslide*

Erasmus+
KA220-ADU - Cooperation
partnerships in adult education
2022-I-TR01-KA220-ADU000087618

Funded by
the European Union

This project is co-funded by European Union (EU) and the Turkish National Agency under the Erasmus+ grant KA220-ADU - Cooperation partnerships in adult education. EU and Turkish National Agency cannot be held responsible for any use which may be made of information contained therein.

PROJECT DESCRIPTION

READY4DISasters project aims to develop resilient communities through awareness and preparedness against the risks of fire, flood, and landslide. To achieve this objective, diverse groups in the society should be included in the efforts and their competency should be developed. This is possible promoting new learning and training opportunities concerning this issue among the volunteer citizens.

READY4DISasters project will provide necessary digital tools, including digital games along with education and training materials to support volunteers in acquiring and developing basic skills and key competencies in preparation against disasters. Via the products developed in this project, volunteers will be able to get ready and connect with all aspects of disaster management starting from mitigation to preparedness, response, and recovery.

OBJECTIVES

- Contributing the goal "being constantly prepared for disasters and emergencies by increasing social awareness"
- Strengthening volunteer networks in Europe for disasters
- Motivating local citizens and raising awareness for volunteers through innovative training modules and procedures
- Developing social competences for volunteers
- Understanding other countries' approaches to disaster mitigation, preparedness, response and recovery in the fields of flood, landslide and fire.
- Networking on regional and local level, in line with EU strategic policies
- Sharing good practices disaster mitigation, preparedness, response and recovery
- To present methodologies to measure resilience of communities for disasters

DELIVERABLES

- A competence map
- An OER platform and training modules for adult learners in four different languages
- Interactive Mobile App and Game, as the digital trainer, that will give the volunteers and trainers innovative knowledge and help volunteers to improve the practical skills of prevention and preparedness
